

Cisco Spark Room 55

The Cisco Spark Room 55: Bringing advanced experiences to every room

Cisco Spark™ Room 55

Cisco Spark™ Room 55 combines an unmatched video and audio experience with a sophisticated, Red Dot-awarded design to create a compelling team collaboration system. Room 55 is an all-in-one, integrated system that's easy to install, use, deploy, and manage – and is optimized for rooms that seat up to seven people.

Room 55 is crafted with high-quality components:

- Professional 4K display for longevity and minimal latency
- Powerful digital zoom camera for discreet tracking
- Sophisticated speaker system and amplifier to deliver rich sound
- Light industrial design that combines aluminum and fabric for a sustainable and humanizing effect

With [Cisco Spark Room Kit](#) as its base technology, Room 55 brings capabilities such as speaker tracking, best overview, automatic wake-up, and people count to enable even smarter meetings, smarter presentation capabilities, and smarter room and device integrations. These features and functionalities further remove the barriers to usage and deployment of video in small- to medium-sized meeting rooms.

Room 55 is rich in functionality and experience but is priced and designed to be easily scalable to all of your meeting rooms and spaces, whether registered on-premises or to Cisco Spark through the Cisco® Collaboration Cloud.
